

COLORING BOOK

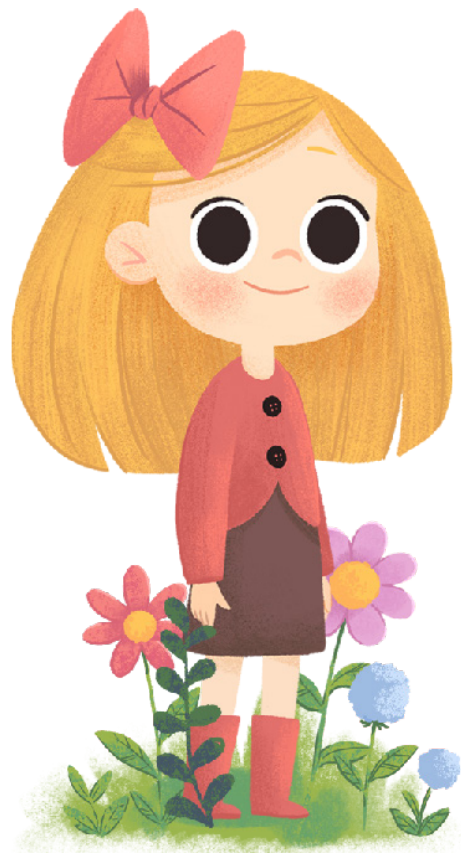

LEO

Leo has a green thumb and loves growing all kinds of different plants. He is learning how to give them the right amount of sunlight and water so they can grow big and strong. Sometimes he grows vegetables to eat so he can grow big and strong, too. Leo adores cooking with his dad and helping him in the kitchen, especially when he can use veggies from his own garden!

MOLLY

Molly loves animals. Her family has two dogs and a cat and Molly is in charge of feeding them and giving them water every day. Molly and her mom like to take the dogs to the park. They look for other animals like birds, squirrels, and rabbits. Molly also loves to play with her brother and pretend they work on a farm!

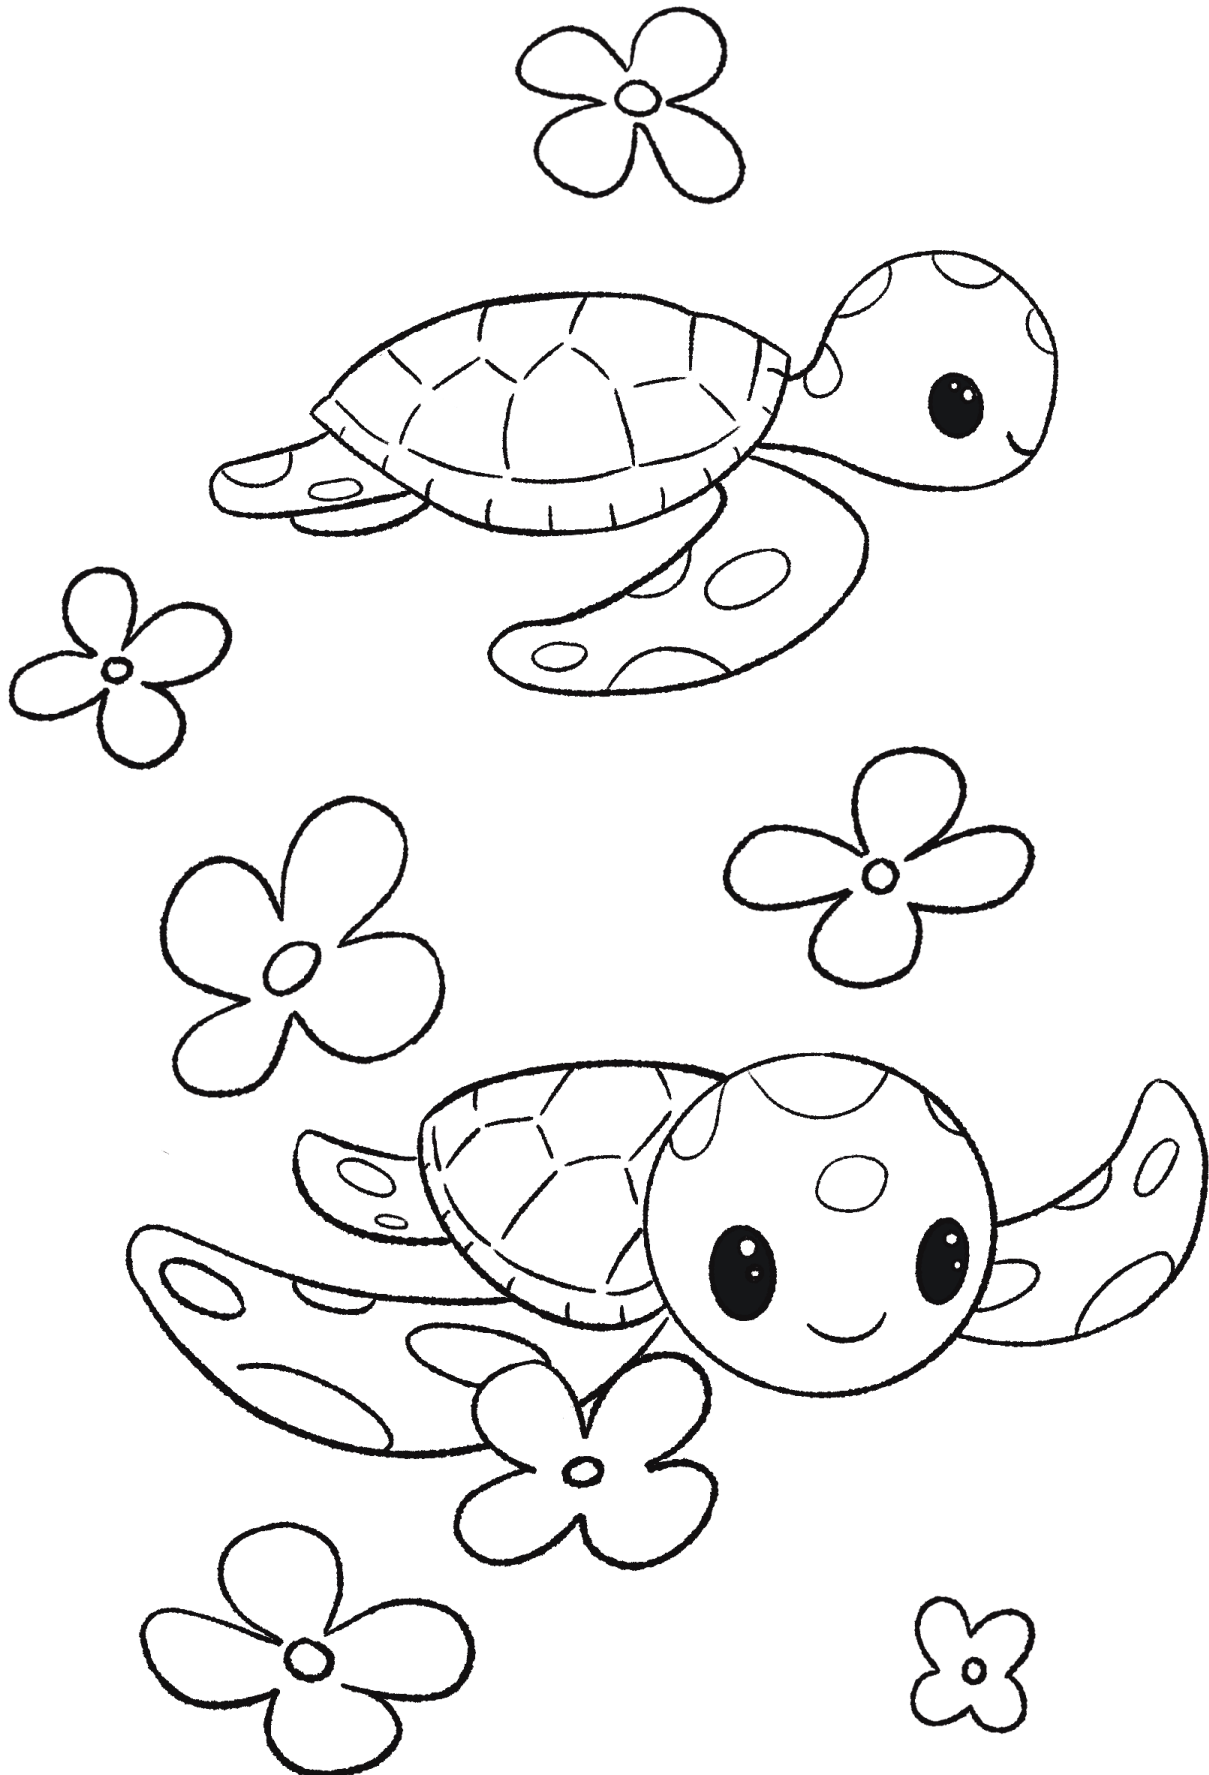

RUBY

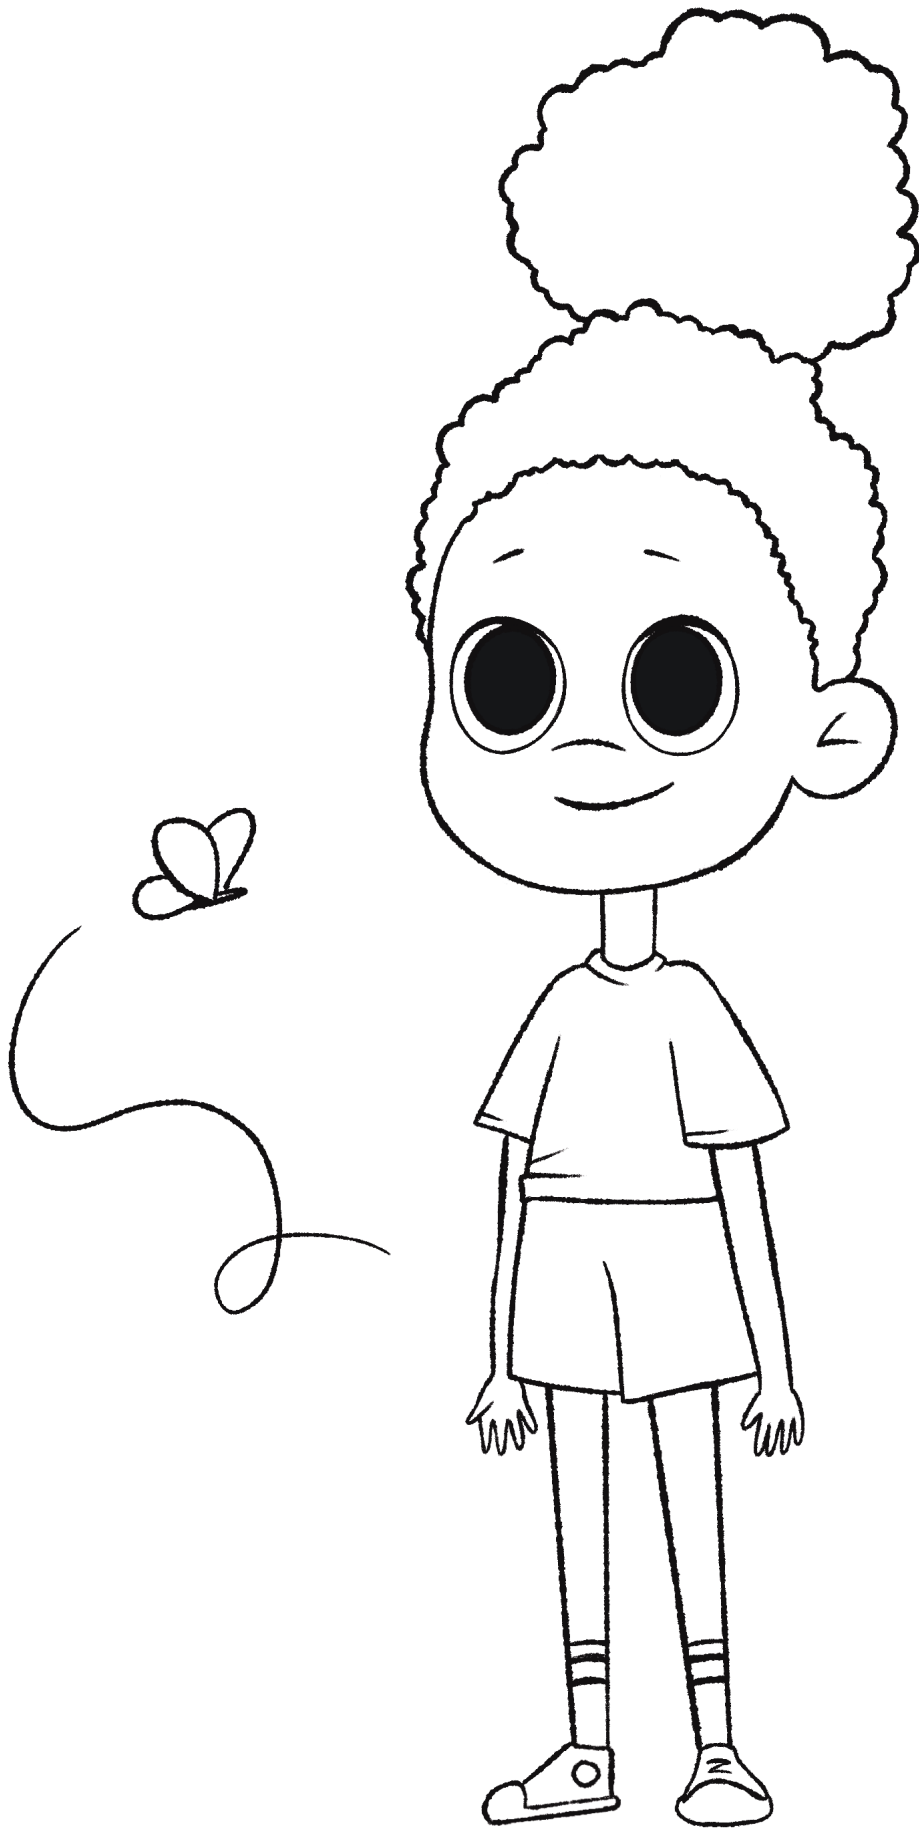

Ruby really likes learning about the weather. When she was little, she was scared of storms, but now she thinks they're cool. She likes looking up and finding different shapes and animals in the clouds – once she even saw her favorite food, ice cream cones! Ruby also likes playing hide and seek outside with her friends and reading books at bedtime.

FINN

Finn's family has moved around a lot so he's lived in lots of different places — near the forest, the mountains, and even the ocean! Wherever Finn goes, he and his brothers love exploring and learning about the animals and nature around them. Sometimes they come home and draw what they see — yesterday Finn painted a bird learning to fly in a meadow!

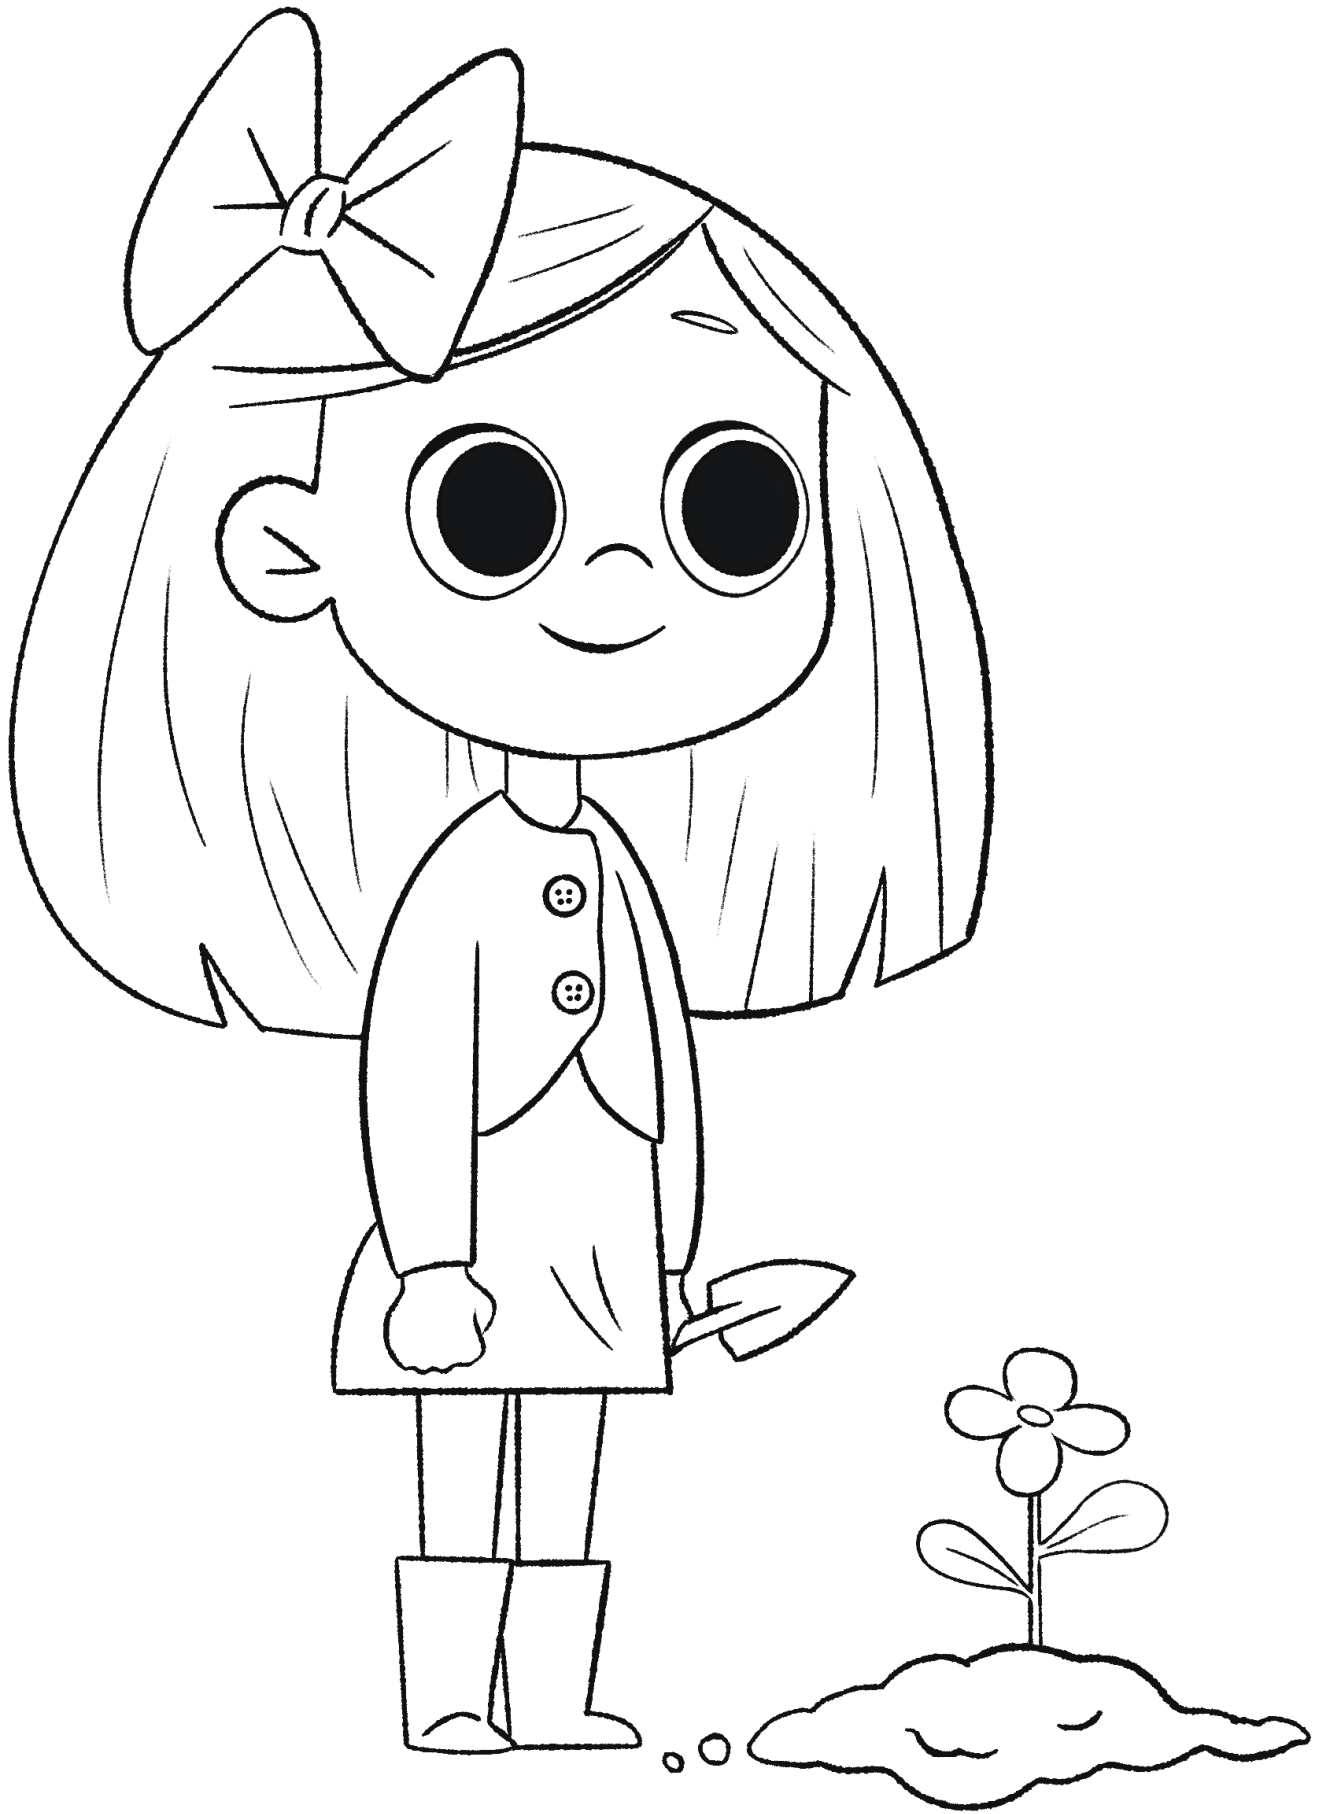

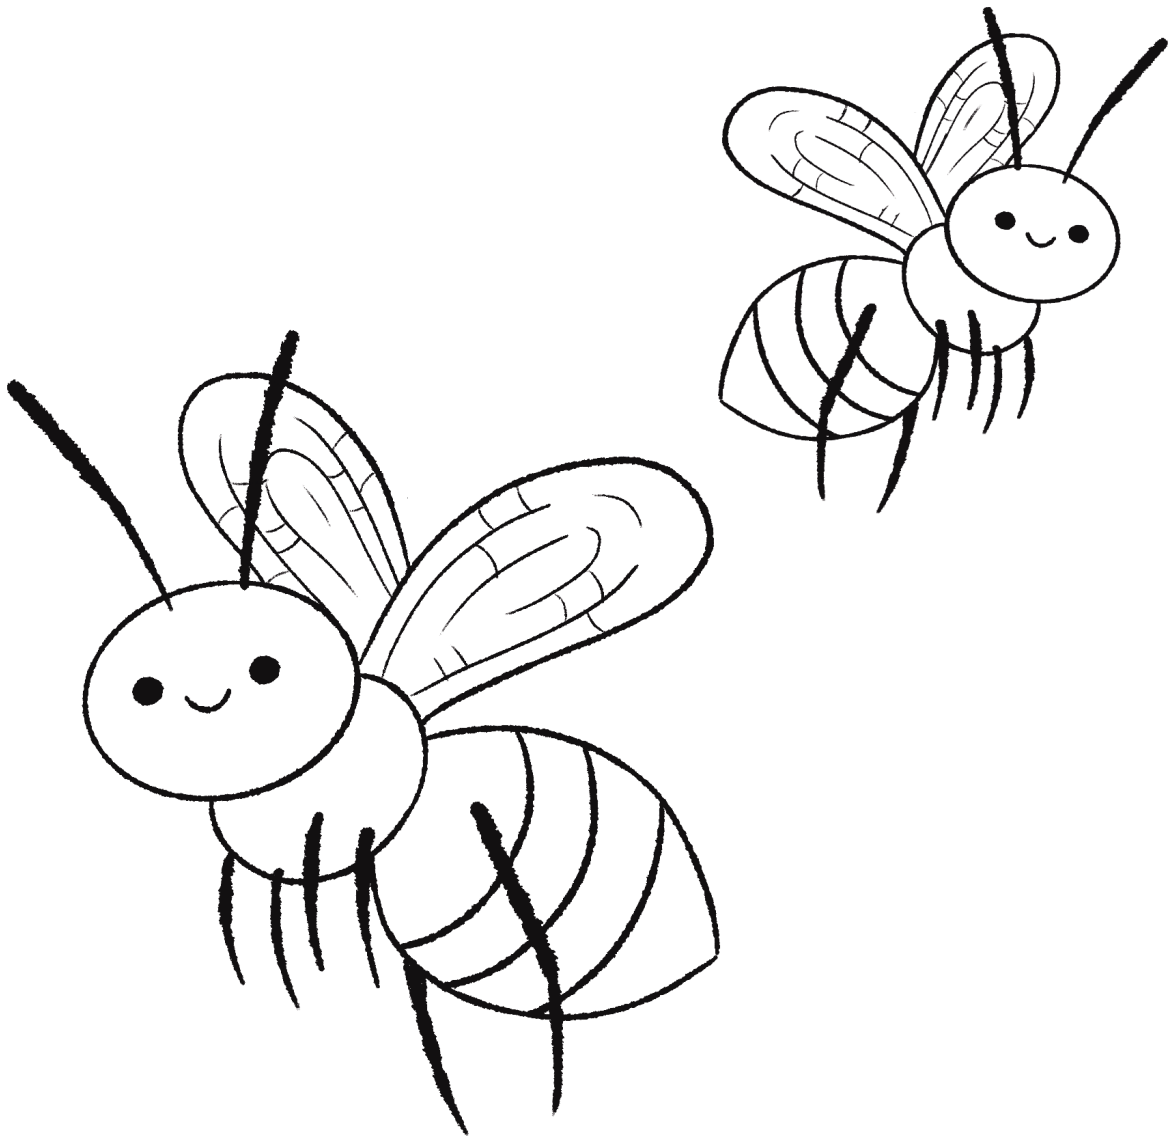

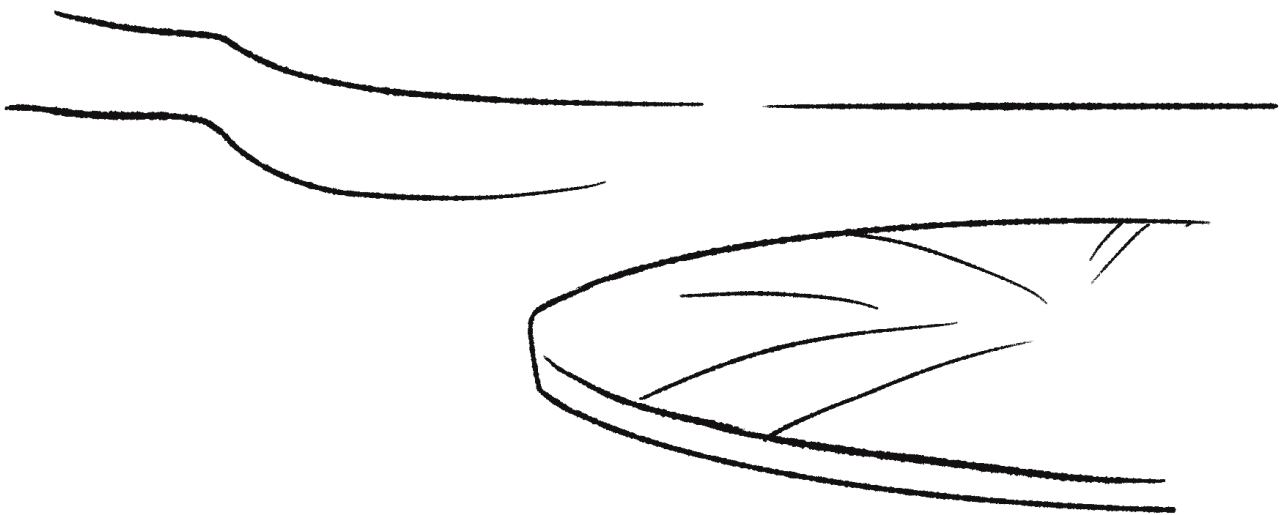

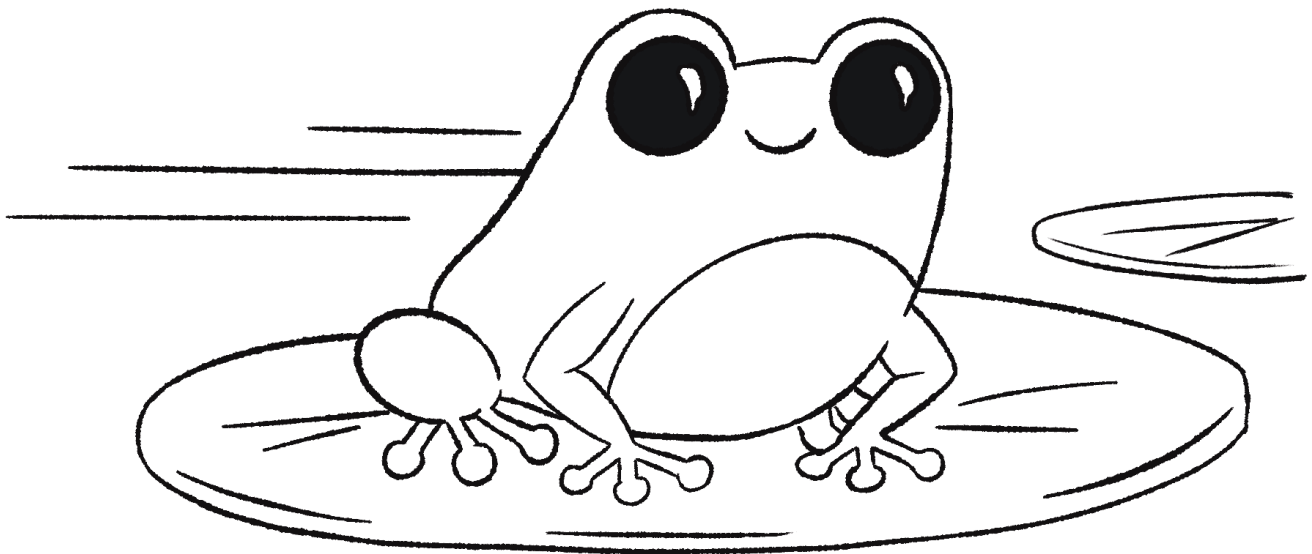

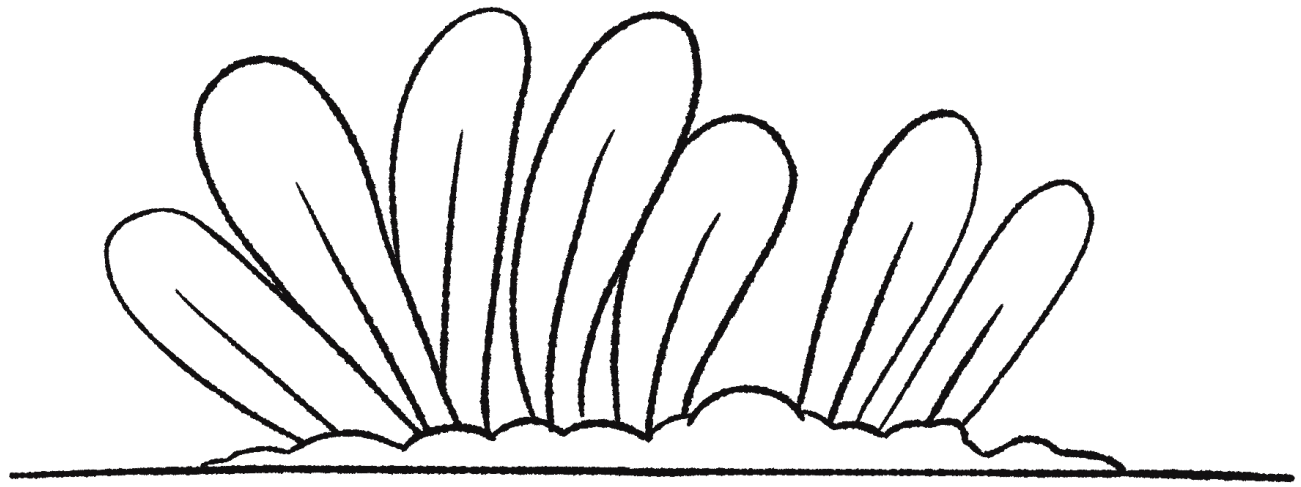

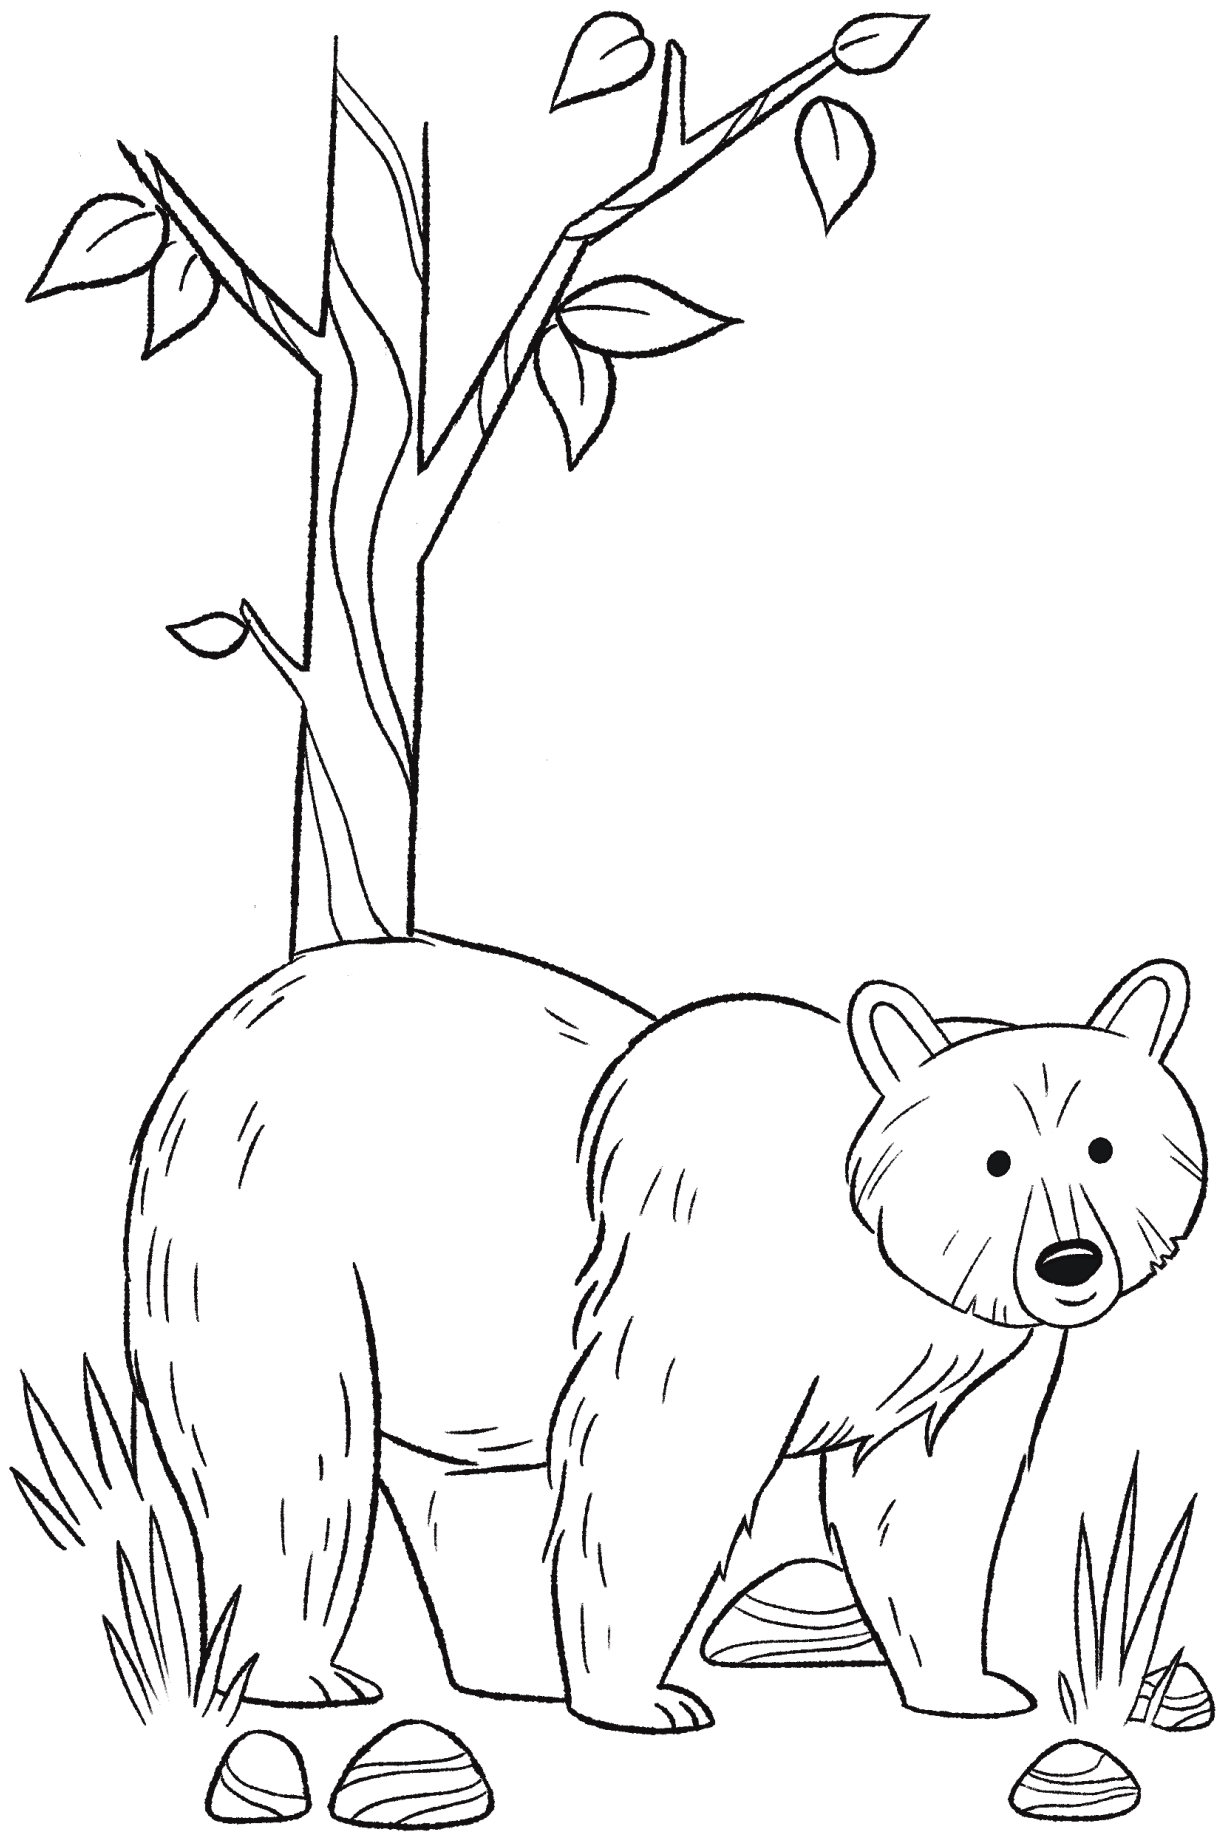

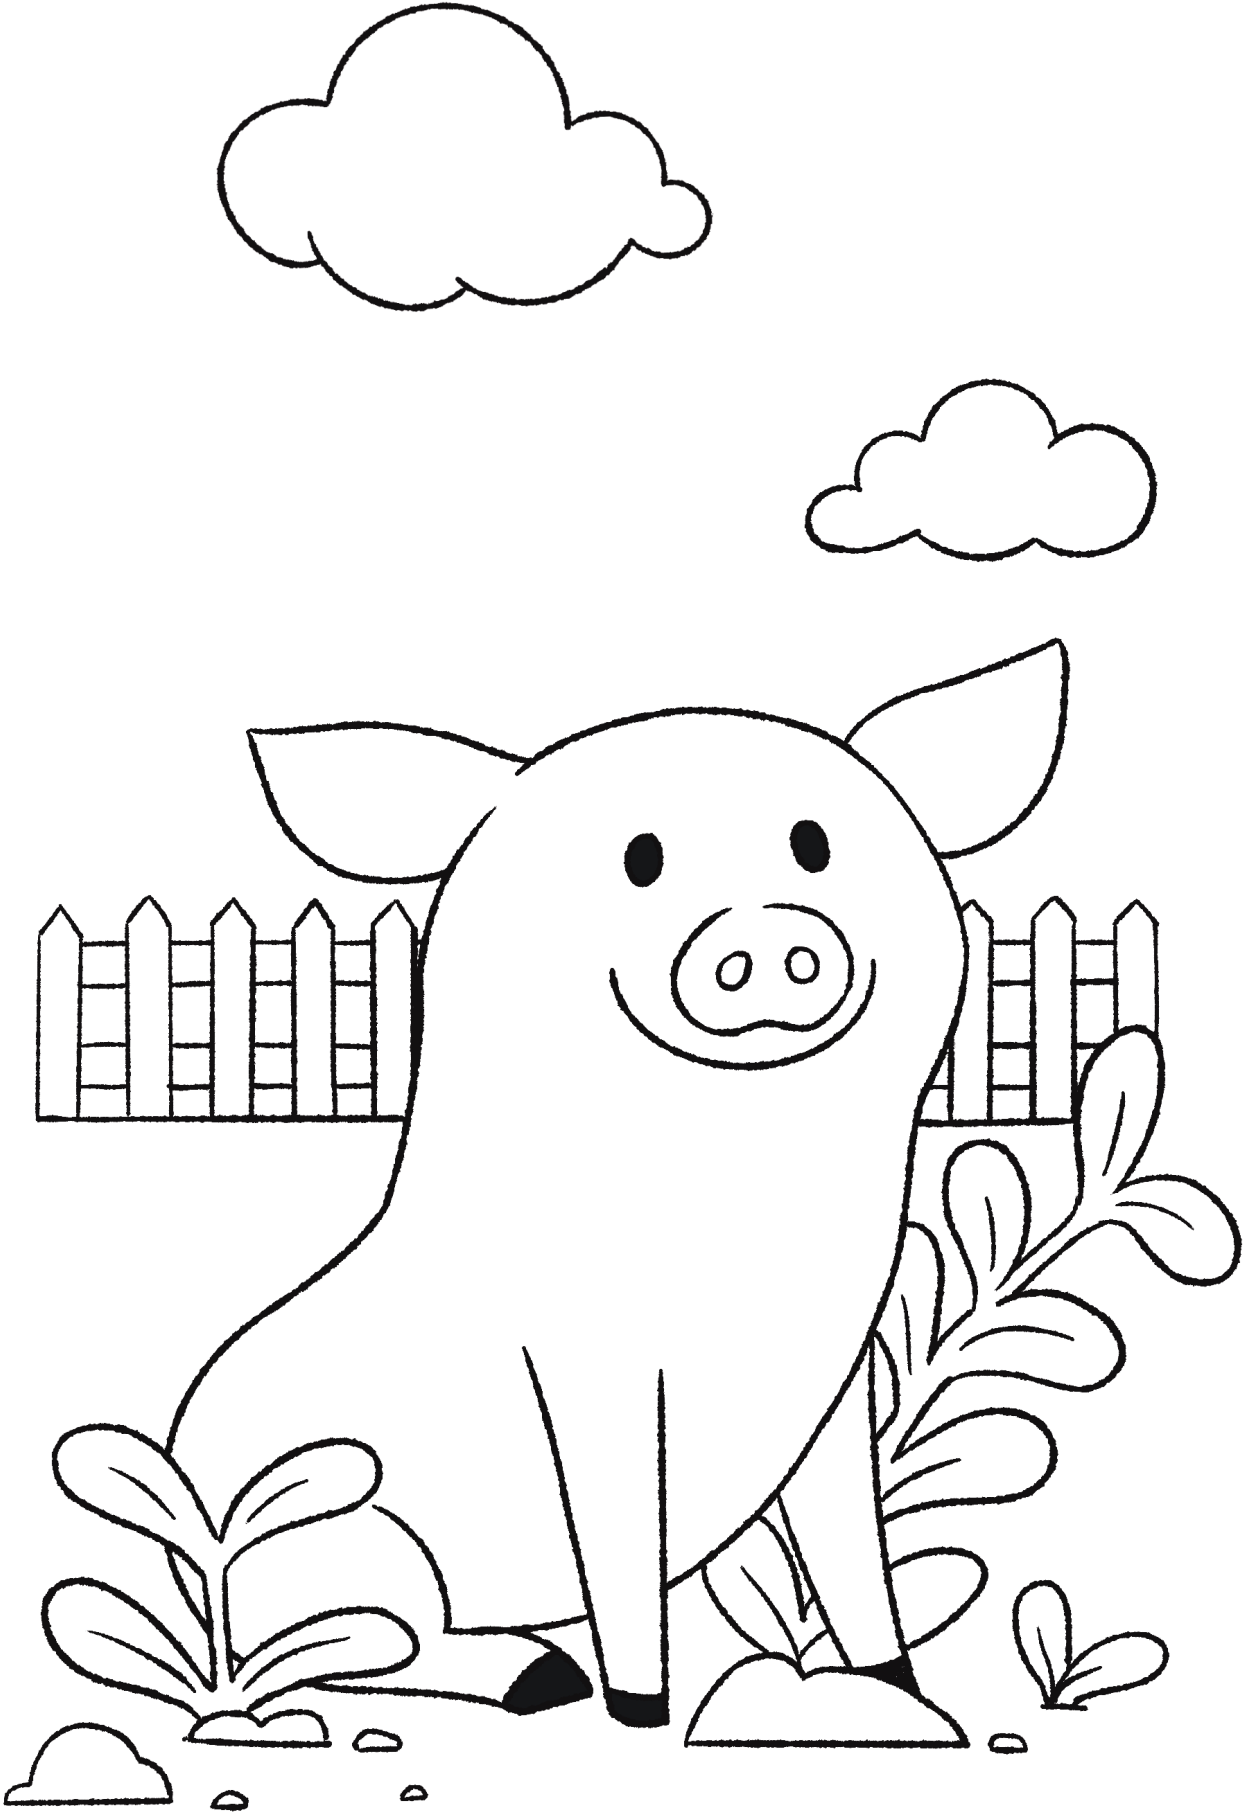

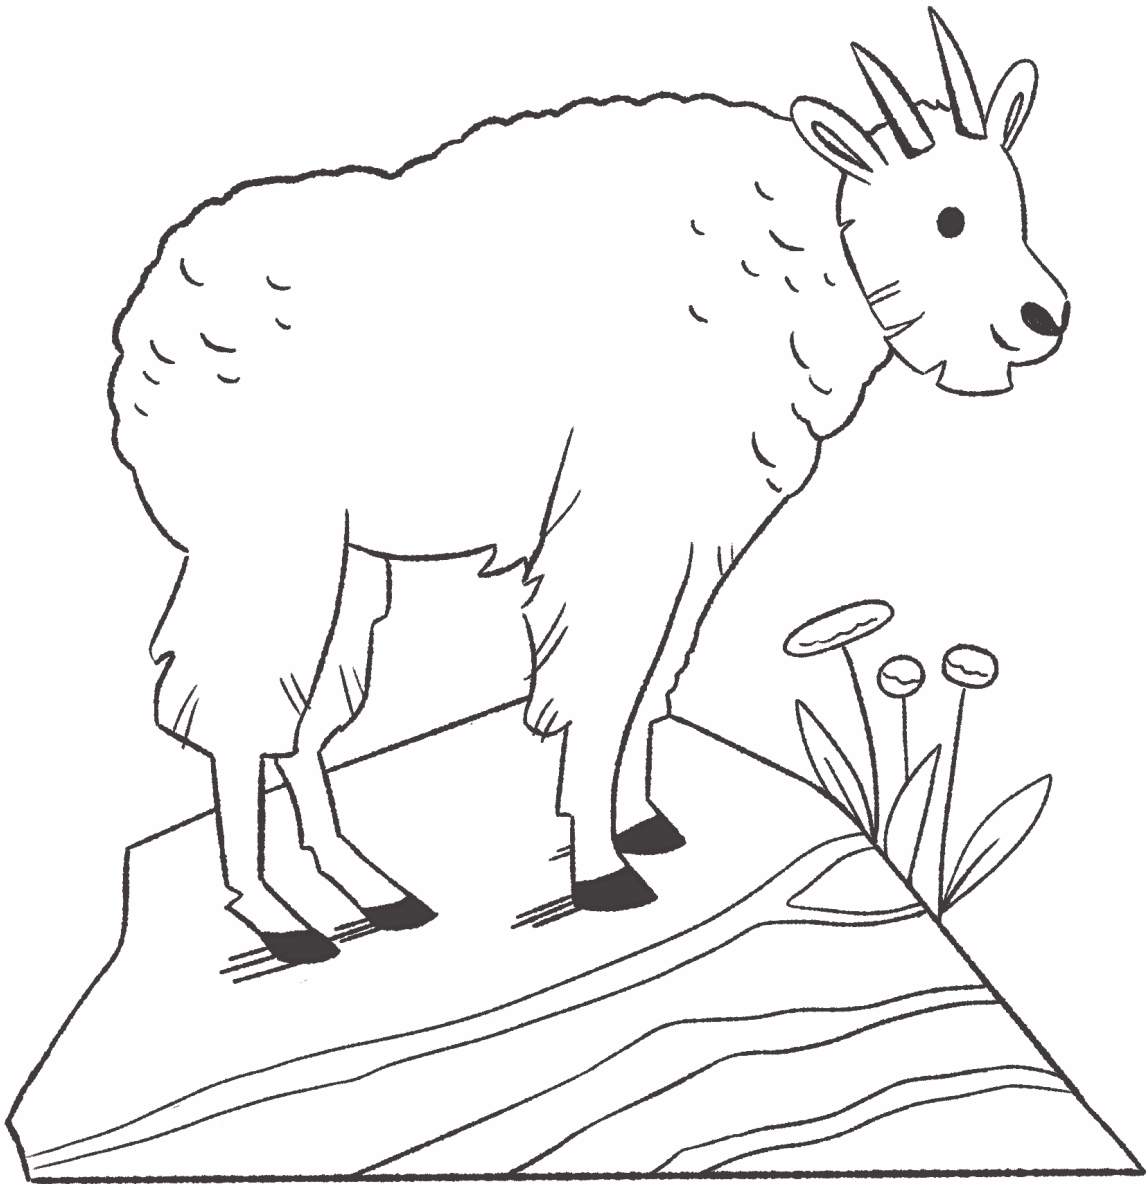

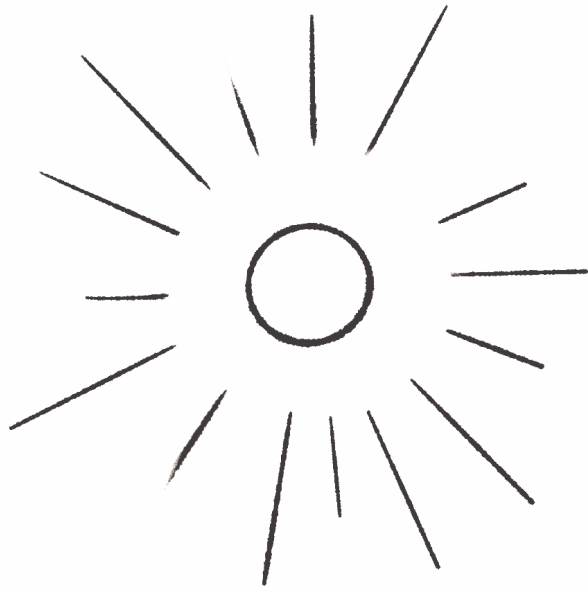

WONDER
BUNCH

Fun learning apps.
Inspired by the wonder of nature.
Created by parents who care.

With Wonder Bunch apps, your child will walk away from screen time feeling happy, smarter, more confident – and calm. We want your kids to play our apps, then go outside.

Download our first app,
Letter Meadow, today!
